- 5 Lead automatically logged to your CRM

Expense Tracker

BUILD 2

- 1 Employee takes a photo of any receipt
- 2 Sends the photo to a Telegram chat
- 3 AI reads: vendor, total, date, and category
- 4 Auto-logged to Google Sheets in under 10 seconds
- 5 Live dashboard updates: food cost %, profit margin

Lead Capture

BUILD 3

- 1 Visitor fills out your website contact form
- 2 Webhook fires instantly — no delay
- 3 Lead info auto-logged to Google Sheets
- 4 Owner gets an email notification within seconds
- 5 Zero leads fall through the cracks — ever

FREQUENTLY ASKED QUESTIONS

How long does setup take?

Under 1 hour for most clients. We handle the entire setup — you don't lift a finger. Your system is live the same day.

Do I need any technical knowledge?

None. You don't touch a single line of code. We build, configure, and test everything before handing it off to you.

What if I already have tools I use?

We work alongside your existing setup. No replacements needed — we plug in and automate what you already have.

What if something breaks or needs updating?

Your monthly retainer covers all support, maintenance, and updates. One message and we fix it — usually the same day.

Is this built for my type of business?

If you have customers, leads, or expenses — yes. We work with roofing, HVAC, restaurants, law firms, dental, and more.

How do I know if it's working?

You'll see every lead logged, every receipt captured, every call handled — all visible in your dashboard in real time.

The setup takes 1 hour. The results last forever.

No contracts. No tech skills needed. Live the same day you say yes.
