⚡ AI That Works For Your Business 24/7 — Setup in under 1 hour · No technical knowledge required
While You Focus On Growing It

3 AI Systems That Eliminate Your Biggest Daily Time Wasters

Most small businesses lose thousands every month to missed calls, manual data entry, and leads that fall through the cracks. Flowlayer AI automates all three — completely hands-free.

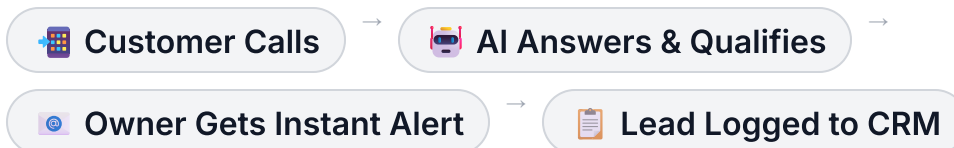

AI Voice Agent — Never Miss a Call Again

24/7 LIVE

A customer calls your business number. Instead of voicemail, an AI receptionist answers instantly — collects their name, phone number, what they need, and how urgent it is. The owner gets an email alert within seconds with the full lead profile. Every call logged automatically to your CRM.

BUILD 1

Try it live right now: **Call (336) 388-8057**

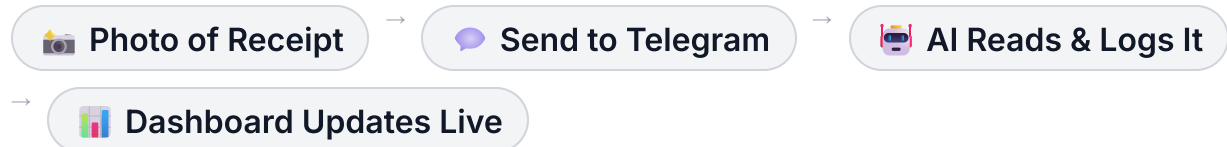

Automated Expense Tracker — Receipts Log Themselves

INSTANT

BUILD 2

Your team takes a photo of any receipt and sends it to a Telegram chat. AI reads the receipt, extracts the vendor, total, date, and category — then logs it to your Google Sheet automatically. The Dashboard shows food cost %, labor cost %, and profit margin live in real time. No more manual data entry. Ever.

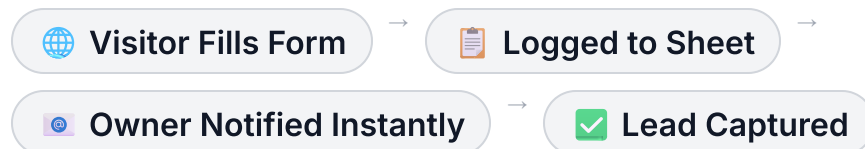

Website Lead Capture — Turn Visitors Into Logged Leads

AUTOMATED

BUILD 3

A visitor fills out the contact form on your website. Their information is instantly logged to a Google Sheet and the owner receives an email notification within seconds. No lead ever goes unnoticed. No form submission ever gets lost in an inbox. Every potential customer captured and tracked automatically.

WHY BUSINESSES CHOOSE FLOWLAYER AI

Live in Under 1 Hour

We handle the entire setup for you. No technical knowledge needed. Your system is fully running the same day.

Pays For Itself Immediately

One saved lead or one week of eliminated manual data entry covers the cost. Most clients see ROI within the first 30 days.

Built For Your Business

Every system is custom configured for your specific business. Not a generic app. Built and maintained by a dedicated AI specialist.
