? FREQUENTLY ASKED QUESTIONS

How long does setup take?

Under 1 hour for most clients. We handle everything — you don't lift a finger. Your system is live the same day.

Do I need any technical knowledge?

None. You don't touch a single line of code. We build, configure, and test everything before handing it off.

What if I already have tools I use?

We work alongside your existing setup. No replacements needed — we plug in and automate what you have.

What if something breaks or needs updating?

Your monthly retainer covers all support and updates. One message and we fix it — usually the same day.

Is this built for my type of business?

If you have customers, leads, or expenses — yes. Roofing, HVAC, restaurants, law firms, dental, and more.

How do I know if it's working?

You'll see every lead logged, every receipt captured, every call handled — visible in your dashboard live.

The setup takes 1 hour. The results last forever. (941) 284-1742

No contracts. No tech skills needed. Live the same day you say yes.
