AI That Works For Your Business 24/7 — While You Focus On Growing It Setup in under 1 hour · No technical knowledge required

3 AI Systems That Eliminate Your Biggest Daily Time Wasters

Most small businesses lose thousands every month to missed calls, manual data entry, and leads that fall through the cracks. Flowlayer AI automates all three — completely hands-free.

AI Voice Agent — Never Miss a Call Again

24/7 LIVE

A customer calls your number. Instead of voicemail, an AI receptionist answers instantly — collects their name, need, and urgency. The owner gets a full lead alert in under 60 seconds, automatically logged to your CRM.

BUILD 1

Try it live: [Call \(336\) 388-8057](tel:(336)388-8057)

Automated Expense Tracker — Receipts Log Themselves

INSTANT

Snap a photo of any receipt and send it to Telegram. AI extracts vendor, total, date, and category — then logs it to Google Sheets automatically. Dashboard shows food cost %, labor %, and profit margin live. Zero manual entry.

BUILD 2

Website Lead Capture — Turn Visitors Into Logged Leads

AUTOMATED

A visitor submits your website form. Their info is instantly logged to Google Sheets and the owner gets an email notification within seconds. Zero leads go unnoticed. Every potential customer captured and tracked automatically.

WHY BUSINESSES CHOOSE FLOWLAYER AI

Live in Under 1 Hour

We handle the entire setup. No technical knowledge needed. Your system is fully running the same day.

Pays For Itself Immediately

One saved lead or one week of eliminated manual entry covers the cost. Most clients see ROI within 30 days.

Built For Your Business

Every system is custom configured for your specific business. Not a generic app — built by a dedicated AI specialist.
